

Box plot showing the distribution of 'number' for two categories: 'none' (red) and 'some' (teal). The y-axis is labeled 'number' and ranges from 0 to  $1.1 \times 10^{-6}$ . The 'none' group has a median around  $0.4 \times 10^{-6}$ , while the 'some' group has a median around  $0.2 \times 10^{-6}$ . A horizontal line at the top indicates a difference of  $1.1 \times 10^{-6}$ .
