

Box plot showing the distribution of 'batch_group' for two categories: 'batch_1' and 'batch_2'. The y-axis represents a numerical value, with a scale break between 0.0 and 1.1×10^{-6} .

The plot displays the median, quartiles, and outliers for each group. A bracket indicates a difference of 1.1×10^{-6} between the two groups.

| batch_group | min | Q1 | Median | Q3 | max | Outliers |
|-------------|------|----------|----------|----------|----------|--|
| batch_1 | ~0.0 | ~0.1e-06 | ~0.5e-06 | ~0.8e-06 | ~1.0e-06 | ~0.0, ~0.2e-06, ~0.9e-06, ~1.0e-06 |
| batch_2 | ~0.0 | ~0.0 | ~0.2e-06 | ~0.5e-06 | ~0.8e-06 | ~0.0, ~0.1e-06, ~0.3e-06, ~0.4e-06, ~0.6e-06, ~0.7e-06, ~0.8e-06 |
